apply said combining/infusing process. As such, this has brought forth a much higher end result in the performing of their item.

I have also spent years investigating, and studying Calcium Bentonite, and the overwhelming amount of clinical, and scientific studies, establishing the numerous medicinal benefits . The Documented studies dating as far back over 100 years. I; have personally used Calcium Bentonite, to aid myself, and a multitude of others over the years, in a myriad of ways, Following the modalities learned from these studies, and other modalities that I have developed over the years. All, I might add, following my instructions on the proper usage for their respective situations, have rendered above their expected results . These incidents of dis-ease/dis-function, are not only with humans, these modalities have also been applied to pets, with great results.

STATEMENT:

About my nearly lifelong journey, into the realm of investigating the state, and condition of human's health, and the dis -ease, and dis-function factor(s) thereof. My journey started at the age of 15, when my mother died of cancer. I vowed to myself, that I would study, and learn how, this abysmal unnecessary dire anguish, that enveloped me, and nearly consumed me, could be brought to a state of eradication, so that no others would have to endure what I had to abide. For I believed that there had to be, was, and is knowledge out there, other than just the expected modalities of modern medicine's accepted protocol, and procedures. The route I must take was obvious to me. I just had to find than gather, and make available to any, and all others, what my research, and investigation into what else was already known, that was forgotten, ignored, offhandedly discounted, (excepted) or overlooked. I have since learned, through the years that: *There is no such thing as a cure; for dis-ease, and bodily dis-function... There is only, the ability of The Knowledge; and the Knowing of utilization of The Knowledge; to bring forth, and render*

to the body, the elements it's lacking or devoid of, thereby enabling the body's natural ability to heal itself... For only the body has the ability to heal itself, nothing or no one is able to do so... For only The Body can cure The Body; everything else is either an aid or a debilitation to The Body... This is why I, utilize the many varying modalities, I have learned over the decades, to aid, and advance towards one's natural state. As such, the non-invasive modalities I ply, enable a much easier manner wherein by which, the body need not so diligently struggle, and be so overburdened with, merely attempting to keep the invading dis-ease at bay. Instead, with the proper ingredients, and actions rendered, the body is availed the ability to, do what it has been designed to achieve, and facilitate towards it's natural, and desired state of homeostasis.

(I am now, as of the constructing of this conveyance, 68 years old.)
