

MagOzone

OVERVIEW:

MagOzone™ is an exceptionally simple and incredibly effective way to cleanse the entire gastrointestinal tract (both the small and large intestines). It works through the following five mechanisms:

- 1) **MagOzone™** has been formulated with specific enzymes that digest biofilm*
- 2) Reactive Oxygen Species (ROS) found in **MagOzone™** consisting of complex oxides of magnesium will alter the bio terrain**
- 3) **MagOzone™** contains citric acid to provide the proper pH for the release of ROS
- 4) The complex oxides of magnesium in **MagOzone™** are not for nutritional use but act as a cleanser drawing water into the digestive tract which supports the cleansing effect
- 5) **MagOzone™** has potassium chloride to replenish quantities lost in the cleansing process

*Biofilm is a protective matrix made up of polysaccharides and proteins that allow negative bacteria and viruses to survive antibiotics as well as evade the body's immune system

**An iodometric titration using five reagents was used to verify the total quantity of ROS

MagOzone™ oxygenates the intestinal environment supporting a healthy microbiome as well as an effective immune system. There is no need for fasting as the capsules are taken with meals. **MagOzone™** is non-toxic, non-habit forming and does not produce any cramping or discomfort.

FEATURES:

- Small dosage quantities
- Gluten free
- Dairy free
- Soy free
- Non-GMO
- 100% vegan/vegetarian
- No artificial ingredients
- Kosher, Halal and Organic compliant

BENEFITS:

- Relieves occasional constipation.
- Aids in cleansing the gastrointestinal tract.
- Helps to maintain healthy gut microbes.
- Helps promote regularity.
- **Relieves** occasional gas, bloating and discomfort
- Aids in strengthening the immune system.
- Delivers oxygen to the intestinal tract
- **Supports** beneficial probiotic growth

SUGGESTED USAGE:

Maintenance: Take one (1) capsule two times a day with meals. If needed, take two (2) capsules two times a day with meals

Cleanse: Take two (2) capsules three times a day with meals. If you experience 1-3 bowel movements the next day, then maintain this dosage. If not, take three (3) capsules three times a day with meals. If there are still not 1-3 bowel movements the next day, then take the maximum dosage of four (4) capsules three times a day with meals. Cleanse from 3 to 10 days

WARNINGS:

- Not for use by children under the age of 12 years old
- Not for use by women that are pregnant or lactating.
- Consult your HCP if you have a history of cardiac or kidney disease.
